Bolex 18 5 L Super

The 18-5L was introduced in 1967 as an updated version of the 18-5 Super 8 projector. The major improvements made to this model were a brighter lamp (12v 75w) and the ability to switch from forward motion to reverse with the lamp illuminated.

Bolex Collector | Projectors | 18-5L

Although Bolex had no Super 8 camera to offer in 1965, when the new film guage was introduced by Kodak, it was relatively quick in redesigning the 18-5 projector to accomodate it. It would be another two years before they introduced their first Super 8 camera, the Bolex 150. The 18-5 Super featured completely automatic loading from reel to reel.

Bolex Service Repair Manual PDF

I bought a Bolex 18-5L a few months ago. These are great little Super 8mm silent projectors. Sturdy built...very quiet...very steady picture. However the one I got didn't have a power cord and it not only had that expensive spaceman bulb...but this bulb had a funky base you just can't find anymore.

8mm Forum: Bolex 18-5L - DIY Lamp Conversion

There was also a 18-5 Super (super 8mm version) that used the same CXR bulb. The updated 18-5L Super 8 version used the incandescent CXL bulb prior to 1970 and then the halogen EFN. These were both 12V/75W bulbs. Have you tested the bulb (s) to see if they are good.

8mm Forum: Bolex 18-5 Projector Bulb Problem.

A Bolex 18-5L Super Projector with Lytar 17-30mm f1.3 lens. A fully functional projector - projection is fine if a little noisy, rewind works fine. Comes with the Bolex take-up reel which allows extremely easy loading with automatic take-up. Arguably the best soundless Super 8 projector made.

Some links go to our hard to find page indicating a bulb we no longer purchase new from the manufacturer. *Discontinued by General Electric This cross reference guide is designed to help you find the lamp you need for your application.

Replacement Light Bulbs-Cross Reference Guide P

Paillard Bolex was slow to introduce a Super 8 camera although they quickly modified the 18-5 Auto 8mm projector for Super 8 as the 18-5 L. At about this time (1966) the Bolex 16 Pro Camera was introduced to compete with the Arriflex 16 BL camera, as a technically advanced professional camera more suited for television use than the H-16.
